Audit Findings

Audit Narrative

The Prison Rape Elimination Act (PREA) Audit of the Binghamton Men's Facility in Binghamton, New York, a facility under the operation of the Volunteers of American Western New York Inc. was conducted on May 23-24, 2018 by PREA Auditor Barbara King. The audit process began with communication between the PREA Compliance Manager/Vice President of Housing and the auditor in March 2018. The auditor explained the audit process detailing that compliance is assessed through written policies and procedures, observed practices, and interviews with residents and staff. The PREA Compliance Manager indicated this was the facility's first PREA audit.

The Audit Posting was sent to the facility by the by the auditor on April 14, 2018. The facility acknowledged receiving the audit posting and the postings were placed throughout the facility. The PREA Compliance Manager emailed photos of the postings for verification on April 16, 2018.

On April 16, 2018, the auditor received the PREA Pre-Audit Questionnaire and supporting documents on a thumb drive provided by the agency. The thumb drive contained two parts: a master folder of supporting documentation the PREA standards and the Pre-Audit Questionnaire. The master folder contained relevant policies and procedures and supporting documentation to demonstrate compliance. After the review of the Pre-Audit Questionnaire and documentation, on May 4, 2018 the auditor emailed the agency and facility requesting further documentation for clarification and review on various standards. Some of this information was provided electronically prior to the audit and the remaining documentation was provided during the audit visit. The auditor reviewed the 2015-2016 and 2016-2017 PREA Annual Reports and the PREA information on the Volunteers of American Upstate New York website (<https://www.voaupny.org>) prior to the audit. Prior to the on-site visit, contact was made with the PREA Compliance Manager to discuss the audit process and set a tentative time schedule for the on-site audit.

Also on May 4, 2018, the auditor requested the following information be provided the first day of the audit: daily population report (use May 21), staff roster to include all departments (include title, shift, and good days), resident roster by housing unit and alpha listing, list of staff who perform risk assessments, list of contractors and volunteers (include times available during audit), list of residents with a PREA classification, list of LGBTI residents, list of PREA allegations in the past 12 months (type of case, victim name, investigation outcome), list of residents that reported sexual abuse, list of disabled and limited English proficient residents, list of the first responders from the reported allegations, and list of how the allegations were reported (i.e. verbal to staff, hotline, grievance...). This information will be utilized to establish interviews schedules. The facility provided the requested information the night prior to the on-site audit beginning. This information was utilized for the random selection of residents and staff

to be interviewed (random and specific category) including an alpha and housing listing of all residents housed at the facility, lists of staff by duty position and shifts, lists of residents for specific categories to be interviewed, list of staff who perform risk assessments, and a list of volunteers on site during the audit. Additional information in the packet included the daily population reports.

Before the start of the audit, the auditor met with the Program Manager, PREA Compliance Manager/Vice President of Housing, New York State Department of Corrections and Community Supervision (NYDOCCS) Reentry Operations Manager, NYDOCCS ReEntry Manager Hudson Valley Region, and NYDOCCS Assistant ReEntry Manager Hudson Valley. A detailed schedule for the audit was discussed including the facility tour, interviews schedules, review of audit documentation. It was established that the auditor would meet with the PREA Compliance Manager and any identified staff at the close of each day to review the day's activities and prepare for the next audit day. The facility was informed no correspondence was received from an resident or staff member prior to the audit. Key facility staff during the audit included the Program Manager, PREA Compliance Manager/Vice President of Housing and NYDOCCS Reentry Operations Manager.

The auditor utilized the Auditor Compliance Tool, Instructions for the PREA Audit Tour, the Interview Protocols, Process Map, Auditors Summary Report, and the PREA Auditor Handbook for guidance during the audit process. These documents were available through the National PREA Resource Center.

A facility tour was completed after the opening meeting with the key staff. The housing areas, program area, and service areas, were toured by the auditor. During the tour, the auditor made visual observations of the program, service, and housing areas including bathrooms, staff sight lines, and camera locations. The auditor spoke to random staff and residents regarding PREA education and facility practices.

During the tour, the auditor identified sight line concerns in the facility. Areas that need to be addressed are the parking lot stairway to the basement/kitchen area, under the steps in the front desk stairway to the basement/kitchen area, upper hallway by the back bathroom, dining room area including the entry to the basement bathroom, and the kitchen entry.

All required facility staff and resident interviews were conducted on-site during the two (2) day audit. The auditor began the interview process with resident interviews at the facility. The formal resident interviews were held in a private room located off the lobby that afforded privacy for the interviews. The PREA Auditor Handbook table for resident interviews indicated for resident population size of 0-50 residents; a requirement of 10 resident interviews with at least 5 from the target groups and 5 random interviews. All fifteen (15) parole residents under the confinement contract were interviewed, (100% of the 15 residents under confinement) with the random resident interview questions. There were no residents that identified for any targeted interviews. The residents interviewed acknowledged they had been screened during the intake process, education was provided which began at intake, and they knew how to report. Residents also indicated they felt safe at the facility, acknowledged the zero tolerance of sexual abuse and sexual harassment, and their right to be free from retaliation for reporting.

A total of twenty-two (22) formal staff interviews was conducted and an additional seven (7) informal staff interviews were also conducted during the facility tour. All the facility staff were interviewed on all shifts that worked during the on-site audit. The interviews were held in a private room located off the lobby that afforded privacy for the interviews. All staff was randomly selected from each of the three (3) shift rosters and different departments within the facility (7). Additionally, specialized staff were interviewed including the Agency Head (1), Facility Director (1), PREA Coordinator (1), Agency Contract Administrator (1), Human Resources (1), SAFE/SANE (1), Volunteer (1), Investigator (1), Staff Who Perform Risk Screening (2), Incident Review Team (2), Staff Who Monitor for Retaliation (1), and Intake staff (2). There were no first responders. The staff interviewed acknowledged they have received training and understood the PREA policies and procedures. They acknowledged their responsibilities to prevent, detect, report, and response to sexual abuse and sexual harassment. They understood their roles in reporting and responded to all allegations. The auditor also interviewed representatives of community agencies including the Crime Victims, the agency that provides emotional support and the Lourdes Hospital where medical care and SANE exams would be provided.

There was one (1) allegation reported during the audit period. The allegation was staff on resident sexual abuse, inappropriate relationship. This allegation was reported by a staff member through the hotline. When the facility received the information, the employee had been already terminated on other causes and the resident was no longer at the facility. The investigation is still open by the New York State Department of Corrections and Community Supervision (NYDOCCS) investigator, the investigation unit for the facility.

An exit meeting was conducted by the auditor at the completion of the on-site audit. While the auditor could not give the facility a final finding, the auditor did provide a preliminary status of the findings and request for further documentation needed to demonstrate compliance on three (3) standards. Standards 115.213, 115.217, and 115.265 could not be cleared at the end of the on-site audit process. All the standards required additional policy documentation for compliance. Standard 115.213, addressing the blind spots in the facility. Standard 115.217, documentation and practice of the staff continuing affirmative action duty to disclose misconduct. Standard 115.265, documentation of the coordinated response plan.

The auditor shared with the PREA Coordinator and the Program Manager feedback from the resident population; the residents stated they felt safe at the facility and felt staff would be responsive if an allegation was made. The auditor also shared the that staff was professional and well trained in their PREA knowledge and responsibilities. The auditor thanked the staff of the Volunteers of American Western New York, the Binghamton's Men's Facility, and New York State Department of Corrections and Community Supervision for their hard work and commitment to the Prison Rape Elimination Act.

Policies and directives were forwarded to the auditor by the PREA Coordinator that documented compliance with the outstanding standards 115.217 and 115.265 on June 6, 2018. Photographs documenting the installation of mirrors to eliminate the blind spots was provided on June 7, 2018. No further action was necessary.

The auditor based the decision of standard compliance on: data gathering; review of documentation; observations during the tour of the facility; sampling techniques for interviews with staff, residents, and files; interviews; and the facility's policy and practices.

The Volunteers of American Western New York Inc Binghamton's Men's Facility has a written policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) Section 115.211, that mandates zero tolerance towards all forms of sexual abuse and sexual harassment. The policy also states, PREA mandates the elimination, reduction, and prevention of sexual assault and rape in prisons, jails, and, community confinement facilities (half-way houses) housing adult male and female residents such as the Residential Parole Program and Residential Reentry Center operated by Volunteers of America of Upstate NY.

This policy also outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy also has attachments of PREA for People with Disabilities and First Responder- Reports of Sexual Abuse or Sexual Harassment.

The facility has developed a staffing plan that is based on the four criteria of this standard to include the physical layout of each facility, the composition of resident population; the prevalence of substantiated and unsubstantiated incidents of sexual abuse; and any other relevant factors. The design facility capacity is twenty-nine (29) residents and the staffing plan is based on twenty-nine (29) residents. The population during the audit was twenty-nine (29); fifteen (15) being from the parole transition program. Staffing plan is annually reviewed in April as part of the budgeting process. The Vice President of Housing meets with the Program Manager to evaluate the four criteria of the standard which includes staffing levels, safety concerns, and requests for staffing changes. From this meeting a recommended staffing model is developed and submitted to the PREA Coordinator to review. The PREA Coordinator stated she reviews the PREA allegations, PREA concerns over the last 12 months, camera placements, staff obligations, changes to programs or operations, resident composition, and other relevant factors to determine whether the recommended model is appropriate. The last staffing plan, and the initial one for the facility's first audit was conducted on April 9, 2018 and approved by the PREA Coordinator on April 10, 2018. It was determined that the staffing plan was sufficient. It was noted that when there was higher than anticipated activity within the facility, especially from 5-8:00 pm, additional staff were scheduled. The staffing plan continues to have two (2) resident assistants per shift. The PREA Manager/Vice President of Housing recommended additional cameras be installed and the system be updated to include immediate playback and remote viewing. The camera upgrade would be included in the FY19 budget.

Based on the review of the staffing plan and interviews with the PREA Coordinator and the Program Manager, the staffing plan was developed by the leadership of the facility with input from the PREA Coordinator. The written staffing plan is maintained at the facility and the agency headquarters. The facility makes its best efforts to comply with the plan. If there are deviations, documentation is provided through email to the PREA Manager/Vice President of Housing. The deviations must be approved by the Vice President of Housing. All deviations would be covered through overtime. Staff are available through call in.

The Program Manager indicated during her interview that the staffing reports are reviewed daily. The Program Manager indicated that non-compliance with the staffing plan is rare and would be covered by overtime. To ensure coverage is adequate, schedules are created in advance and reviewed. All vacations must be pre-approved and there are overlapping of staff schedules.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

The facility is an adult male facility. The facility does not conduct physical searches of residents. The policy, Staff and Resident Sexual Abuse and Sexual Harassment section 115.215 states no physical searches of residents of any kind are allowed in the Binghamton parolee program. This was verified through the review of the agency's and facility's policy and procedures governing resident searches and cross gender searches and interviews with staff and residents. If a pat search or frisk searches would be conducted for safety concerns, it would be conducted by staff of the same gender. There were no cross-gender searches conducted or logged for exigent situations during this audit period. Strip searches would only be conducted by law enforcement or medical personnel. Body cavity searches are only completed by medically trained professionals. The policy also prohibits staff from searching or physically examining transgender and intersex residents for the purpose of determining genitalia status. Interviews with staff confirmed these practices, as well as the review of the policy and training lesson plans reinforcing these policies in the annual training.

The policy and practice allow all residents the opportunity to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing them. This was confirmed by interviews with residents and staff. Residents felt they received a sense of privacy for these functions. They indicated in their interviews that staff announce when arriving on the floor and again announce prior to opening a housing room door. Staff indicated they announce female on the floor and knock on a room door prior to entering. This was observed during the audit.

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment section 115.216, has established procedures to provide disabled residents equal opportunity to participate in and benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Facility staff, the Language Line Solutions, and sign language interpreter is available to the facility for interpretation services. VOA will provide a PREA-trained staff person fluent in the resident's native language or access Language Line Solutions. If the resident is deaf and able to read and write, staff will communicate through writing. If the resident needs further assistance, staff will contract a sign language interpreter. Residents that are visually impaired will have staff read the PREA information to the resident; and will consider other accommodation request from the resident. If the resident will benefit from enlarged text, VOA will provide reading materials in a large font. If a resident is cognitively or intellectually disabled, staff will verbally present PREA materials at a level the resident can understand. PREA reminders will be given more frequently. If a resident's mental health interferes with the ability to understand PREA materials, staff will consult with the resident's mental health provider to develop an appropriate plan to effectively convey information. Residents that are limited in their reading skills will have staff provide information verbally.

PREA brochures, posters, and resident handbook are available in English and Spanish. NYDOCCS has PREA information available to the facility in Italian, Simplified Chinese, Russian, Korean, Polish, and Haitian Creole. The PREA posters are posted in English and Spanish throughout the facility. There were no residents during the audit that had limited English, deaf or hearing impaired, blind or sight limited, low cognitive skills, or mental health needs.

There were no instances where a resident interpreter was utilized during this audit timeframe.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment section 115.217, states VOA prohibits hiring or promoting anyone who has contact with residents, and prohibits enlisting the services of any contractor who has contact with residents, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution; has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in the activity described in paragraph. The agency also considers any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. Employment candidates are asked these questions during the interview process.

The agency has established procedures for conducting criminal background checks for new employees who have contact with residents to ensure they do not hire or promote anyone who engaged in sexual abuse in a prison or other confinement setting; been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, coercion, or if the victim did not consent or was unable to consent to refuse; or had civilly or administratively adjudicated to have engaged in sexual activity in the community facilitated by force, coercion, or if the victim did not consent. The background check process is conducted by an outside company called Coeus Global. Per policy, background checks will be completed every five (5) years. Thirty-four (34) background checks were conducted this audit year. All employees have received a background check as verified through the employee personnel files reviewed. Prior to hiring, all background and application information are reviewed by NYDOCCS for final approval.

The agency also imposes upon employees a continuing affirmative duty to disclose any such misconduct and will annually require all existing staff to provide signed statements to this effect. Employees are required to answer questions of: have not engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution and have not been civilly or administratively adjudicated or convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to refuse.

Background checks on contractors are conducting by the contractor's company. Of the six (6) contractors, only one (1) had a background check. The background check is provided to the facility. If a contractor does not have a background check, they are always accompanied by staff while in the building. All contractors are service industry contractors and do not provide programming or services to the residents.

Six (6) personnel files were reviewed with the PREA Manager/Vice President of Housing. Also, through interviews with the Human Resource Manager, Superintendent, and PREA Coordinator it was determined that the agency policy and PREA standards were being followed concerning hiring, promotional decisions, and background checks.

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment section 115.217, states the agency will provide information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. The interview with the Human Resources Manager indicated all information would be disclosed allowed by state regulations and state law.

This was confirmed through the interviews with the Agency Head and Program Manager. The Program Manager indicated a camera upgrade is being planned. The camera project upgrade is planned to add a few additional cameras, playback capabilities, and recording storage for six weeks. The additional cameras would add cameras to the kitchen area, outside foyer, and alley. The estimated completion would be August 2018. The Agency Head stated the agency is always considering the sight lines for resident and staff safety. The camera upgrade would allow the Program Manager and PREA Manager/Vice President of Housing observe the cameras off site and mobile on their phones.

- Does Not Meet Standard** (*Requires Corrective Action*)

The facility does not conduct investigations. All investigations are conducted by NYDOCCS or local law enforcement. The State of New York Department of Corrections and Community Supervision (NYDOCCS) is responsible for criminal and administrative investigations for the parolees under confinement. The Office of Special Investigations (OSI) Sex Crimes Division (SCD) conducts the investigations. The Department has a working agreement with the New York State Police (NYSP) Bureau of Criminal Investigation (NYBCI) to work cooperatively in the investigations of reports of Staff-on-Resident and Resident-on-Resident sexual assault cases that may involve criminal conduct. NYDOCCS utilizes the New York Department of Health

Protocol for the Acute Care of the Adult Patient Reporting Sexual Abuse for evidence protocols and forensic medical examinations. Local law enforcement would be responsible for conducting investigations for residents in the other programs. The investigator interview was conducted with an investigator from NYDOCCS Office of Special Investigations. The investigator confirmed the practices for PREA investigations and was very knowledgeable of the investigation process and the uniformed evidence protocol.

Emergency medical healthcare along with forensic examinations by SANE/SAFE staff are provided at an outside facility with no cost to the resident. Lourdes Hospital is the local hospital that would be utilized for SANE exams. The interview with the SANE nurse from the local hospital indicated three (3) SANE/SAFE staff are on duty during normal working hours. After hours, staff are on call and report immediately as needed. An advocate will be provided to the resident upon request to provide emotional support through the forensic medical examination and investigation interviews. The facility does not have a formalized MOU with the hospital. The interview with agency staff and the SANE nurse indicated services are open to the general public and there is nothing specific to the program that warrants an MOU. There were no forensic medical exams during the last twelve months.

Crime Victims Assistance would provide the emotional support services to the resident. During the interview with Crime Victims Assistance, they indicated an advocate would report to the hospital and provide emotional support during the exam. Counseling would also be provided to the resident after through meetings at their office. The agency would also support and go to court with the resident if needed. Advocates are available twenty-four hours a day. Posters provide the residents with the toll-free number for the agency. Again, the agencies indicated a formal MOU was not needed, the services are available to the residents as like the general public.

- Does Not Meet Standard** (*Requires Corrective Action*)

The facility does not conduct investigations. The Agency Head stated all allegations are referred for investigation, the referral depends on the nature of the allegation. All investigations are conducted by State of New York Department of Corrections and Community Supervision (NYDOCCS) or local law enforcement. The facility would contact NYDOCCS who is responsible for administrative and criminal investigations on residents in the parole transition program (parolees under confinement). NYDOCCS would take the lead on the investigation and the facility would follow the directives from NYDOCCS. The Office of Special Investigations (OSI) Sex Crimes Division (SCD) conducts the investigations. The Department has a working agreement with the New York State Police (NYSP) Bureau of Criminal Investigation (NYBCI) to work cooperatively in the investigations of reports of Staff-on-Residents and Resident-on-Resident sexual assault cases that may involve criminal conduct. Local law enforcement would

be responsible for conducting investigations for residents in the other programs. The investigator interview was conducted with an investigator from NYDOCCS Office of Special Investigations. The investigator confirmed the practices for PREA investigations and was very knowledgeable of the investigation process.

When an allegation is reported, the site supervisor would contact the NYDOCCS if a parolee transition resident is involved. The facility then will follow the directives of the NYDOCCS investigator until the investigator is on site. Other allegations would be reported to the local law enforcement agency, City of Binghamton Police Department.

There was one (1) allegation reported during the audit period. The allegation was staff on resident sexual abuse, inappropriate relationship. This allegation was reported by a staff member through the hotline. When the facility received the information, the employee had been already terminated on other causes and the resident was no longer at the facility. The investigation is still open by the New York State Department of Corrections and Community Supervision (NYDOCCS) investigator, the investigation unit for the facility.

The agency's website, <https://www.voaupny.org>, provides the agency's policy Staff and Resident Sexual Abuse and Sexual Harassment. The policy outlines the investigation responsibilities and the referral and reporting process for allegations. This is also outlined in further detail in the attachment First Responder- Reports of Sexual Abuse or Sexual Harassment.

The Volunteers of American Western New York Inc Binghamton's Men's Facility conducts PREA training as part of the initial new employee training, during annual in-service training, and provides refresher topics as needed. Training records, staff interviews, and review of curriculums indicated the training included the zero tolerance policy; the agency's policy and procedures for prevention; reporting and response to a sexual assault or sexual harassment incident; the dynamics of sexual abuse and harassment in a confinement setting; common reactions of sexual abuse and sexual harassment victims; how to detect and respond to signs of threatened and actual sexual abuse; how to avoid inappropriate relationships with residents; how to communicate effectively and professionally with residents; and how to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities. The training also includes a PREA video which was developed by the New York DOCCS.

The staff receive training annually. Staff complete the NIC Your Role Responding to Sexual Abuse, a 3-hour course, annually in the fall. Staff also receive training through a powerpoint presentation titled PREA Compliance CBRP PREA Policy Overview developed by the NYDOCCS. Staff also view the PREA video. PREA updates and reminders are provide to staff monthly at staff meetings. The agency also sends quiz questions to staff through email and staff are also provided updates during their shifts. The training records indicated all staff at the facility had received the training. The agency's policy Staff and Resident Sexual Abuse and Sexual Harassment, states the agency shall provide these employees with refresher training every year to ensure that these employees know VOA's current sexual abuse and sexual harassment policies and procedures. The VOA shall document through testing or an employee signature that they understand the training they have received. The training files contained signed staff acknowledgements of attending and understanding the training. All staff had completed the annual training. The agency exceeds the requirement of the standard by conducting annual training instead of every two years, conducts refresher courses as needed or as policy changes occur, and refreshers at staff meeting and on-line.

Interviews of random staff and general questions asked of staff during the tour clearly indicate each staff member is knowledgeable on how to perform their responsibilities in detention, reporting, and responding to sexual abuse and sexual harassment.

An interview was conducted with a volunteer. The volunteer acknowledged the training received including watching the PREA video. The volunteer stated the training consisted of signs to look for, be aware of situations, how to report, the zero tolerance policy, and reporting to the Program Manager immediately. Documentation is maintained of the training on the form PREA Visitor Training Acknowledgment.

At intake into the facility, residents are provided PREA information through a PREA brochure, The Prevention of Sexual Abuse Community Based Residential Program Information, that explains the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents. This information is also explained verbally by the intake staff. The resident must sign an acknowledgement form of receiving the brochure and understanding the information. All residents that are parole transition residents received in the facility are transferred from a state prison. The residents acknowledged receiving the PREA education at the prison and also at intake to the Binghamton's Men's Facility.

Facility staff, the Language Line Solutions, and sign language interpreter is available to the facility for interpretation services for residents in need of interpretation. VOA will provide a PREA-trained staff person fluent in the resident's native language or access Language Line Solutions. If the resident is deaf and able to read and write, staff will communicate through writing. If the resident needs further assistance, staff will contract a sign language interpreter. Residents that are visually impaired will have staff read the PREA information to the resident; and will consider

other accommodation request from the resident. If the resident will benefit from enlarged text, VOA will provide reading materials in a large font. If a resident is cognitively or intellectually disabled, staff will verbally present PREA materials at a level the resident can understand. PREA reminders will be given more frequently. If a resident's mental health interferes with the ability to understand PREA materials, staff will consult with the resident's mental health provider to develop an appropriate plan to effectively convey information. Residents that are limited in their reading skills will have staff provide information verbally.

The residents are also provided comprehensive education during their risk screening process. The case manager reviews the PREA brochure with the resident and the resident views the PREA Video. This education expands on the previous education received during the intake process. The resident then acknowledges receiving the information and viewing of the video by signing the PREA Intake Orientation Form. This education usually occurs on the same day as intake or the next business day if a late intake. The Pre-Audit Questionnaire indicated only 104 of the 115 residents received education. The difference are the residents that were received prior to the new contract that started in May 2017. All residents since the start of the contract have received education. All residents at the facility have received education.

PREA brochures, posters, and resident handbook are available in English and Spanish. The PREA posters are posted in English and Spanish throughout the facility. Each housing room has the information poster located on the room door.

Random residents interviewed and during discussion on the facility tour, residents acknowledged they have received PREA information upon arrival at the facility and the information was reinforced during the orientation video. They were able to explain how to report an incident and were aware of the zero tolerance policy. There were no new intakes during the audit for the auditor to observe the education process.

The facility does not conduct investigations. All investigations are conducted by NYDOCCS or local law enforcement. The State of New York Department of Corrections and Community Supervision (NYDOCCS) is responsible for criminal and administrative investigations for the parolees under confinement. The Office of Special Investigations (OSI) Sex Crimes Division (SCD) conducts the investigations. Local law enforcement would be responsible for conducting investigations for residents in the other programs. The investigator interview was conducted with an investigator from NYDOCCS Office of Special Investigations. The investigator indicated that he received training on sexual abuse investigations through the training curriculums: PREA

Specialized Training: Investigations, Basic Investigative Photograph Course, Police Crime Scene and Evidence Specialist Course, Investigating Physical and Sexual Abuse in Institutional Settings, and NIC PREA Investigating Sexual Abuse in a Confinement Setting. These training curriculums cover the topics of techniques for interviewing sexual abuse victims, proper use of the Miranda and Garrity warnings, sexual abuse evidence collection in confinement setting, and the criteria and evidence to substantiate a case for administrative action or prosecution referral. The investigator stated during the interview process that investigators attend a three-week basic Office of Special Investigations training which includes topics of investigating sexual abuse in the confinement settings. Documentation of training is maintained on the Report of Training Form which the employee must sign and date acknowledging training. The specialty training was verified through the investigator interview and review of the training records provided.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

The screening process for the risk of victimization and abusiveness is outlined in the agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) section 115.241. The auditor had the facility staff explain the risk screening process from the receiving of the resident at the facility to the completion of the risk screening process. During the site visit, the auditor was unable to observe the risk screening process since there were no intakes during the on-site audit. The resident initial screening occurs immediately upon intake at the facility utilizing the Prison Rape Elimination Act (PREA) Risk Screening Form – Male Facility. Section A of the risk screening form includes questions regarding mental, physical, and developmental disabilities; age of the resident; physical build of the resident; whether the resident has been previously incarcerated; whether the resident's criminal history is exclusively nonviolent; whether the resident has prior convictions against an adult or child; whether the resident wishes to identify their sexual orientation or gender identity; whether or not the resident is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; whether the resident is perceived as LGBTQI by others; whether or not the resident has previously experienced sexual victimization; and the resident's own perception of vulnerability. The form is a no, yes, and no answer format. If the resident has five or more yes responses or answered yes to specific questions (7b, 8, or 9), the resident may be at high risk of sexual victimization. The supervisor is then notified immediately. The form also provides space for narrative responses and information. Section B of the risk screening form asks questions for the risk of sexual abusiveness. These questions include has the resident been convicted of a crime related to sexual abuse of another inmate, detainee, or resident including the instant offense; have a know history of committing institutional sexual abuse; been convicted of a violent offense including the instant offense; and known history of committing institutional violence. If the resident answers yes to question a or b, the resident may be at high risk of being sexually abusive. The supervisor must be notified immediately. The resident and staff member conducting the assessment both sign and date the form. The screening process conforms to the PREA standard. Staff indicated the risk screening are usually completed on the day of intake if early arrival or the next day if a late arrival. If the resident arrives late on Friday, the risk screening is completed Monday morning. The agency's policy requires the screening should occur no longer than 72 hours from arrival.

Of the 106 residents whose stay was longer than 72 hours, only 90 received screening. Of the sixteen (16) that did not receive screening: eleven (11) entered the program prior to the screening protocol implementation which began in May 2017; three (3) were not present in the facility due to hospital or absconded although carried on the facility count; and two (2) were not

screened for unknown reasons. All residents present during the audit had initial risk screening as documented in the resident files.

The resident is reassessed utilizing the same agency form Prison Rape Elimination Act (PREA) Risk Screening Form – Male Facility within thirty (30) days of the resident's arrival at the facility. The policy states the Program Manager, or designee, will conduct the 30-day reassessment of the resident's risk level of victimization or abusiveness. The case managers were interviewed for the staff member that conducts risk screening. They indicated the reassessments are conducted within thirty (30) days or sooner if the resident is seen as vulnerable. Sixty-nine (69) residents had length of stay longer than thirty (30) days. Of those residents forty-seven (47) received reassessments within thirty days. Of the twenty-two (22) residents not reassessed: eighteen (18) residents exited the facility before the risk screening follow-up was implemented, one (1) resident refused to meet with the case manager and then tested positive for drug use and was exited from the program; one (1) left on the thirtieth day; and two (2) unknown reasons. All residents in the program at the time of the audit had the reassessments completed in a timely manner as documented in the resident files. All the resident files were reviewed. The case manager maintains a spreadsheet that lists the day the resident entered the facility, number of days in the facility, initial screen completed with date, rescreen completed with date, and a comment section.

The agency's policy also addresses the reassessment of a resident's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness. Through policy review and confirmed during staff interviews, residents may not be disciplined for refusing to answer or disclosing information during the risk assessment process.

The staff interviews also confirmed appropriate controls have been implemented to ensure that sensitive information is not exploited by staff or other residents. The screening tools are maintained in the resident's file locked in file cabinets in the case manager's office. Other than the case managers, the only other staff with access to the resident's file is the Program Manager and PREA Manager/Vice President of Housing. Information is shared with appropriate staff as needed to make housing, bed, work, education, program assignments, and mental health and medical referrals based on providing safety for the resident.

The facility uses the screening information from the Prison Rape Elimination Act (PREA) Risk Screening Form – Male Facility to determine housing, bed, work, education, and program assignments with the goal of keeping residents at high risk of being sexually victimized from those at high risk of being sexually abusive. When a resident is identified, the supervisor is notified promptly to assist with housing placement. The staff interviewed that conducts risk assessments indicated that based on the number of yes responses to questions (five or above or yes to specific targeted questions), the resident would be referred to the supervisor for housing and program placement. The resident would also be referred to a local walk in medical clinic if indicated prior victimization. If the resident indicates prior perpetration, the parole officer is contacted.

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) section 115.241, states the program makes individualized determinations about how to ensure the safety of each resident. If a resident is determined to be at risk of sexual victimization or at risk of being a predator, case management staff will share the information with the Program Manager who will help determine next steps related to continued placement in the facility and housing,

education and employment placements. The Program Manager will involve the VP of Housing or the PREA Coordinator as appropriate. Supervisory staff shall be proactive in the prevention of sexual abuse and sexual harassment when making roommate and room selections for residents. Staff will use the results of the PREA Risk Screening Form for Male Facilities and will consider the following factors: compatibility of resident's chronological age; maturity; gang affiliation; level of sophistication; functioning level; size and strength; disabilities; infirmities; behavioral history; and detaining or committing offenses. If a resident has a known history of being a sexual predator, as evidenced through detaining or committing offenses, reports from prior placements, or other credible information, that resident shall be placed in a single room, if space allows. No potential victims will be placed with potential perpetrators or vice versa. Staff shall take seriously a resident's request for a room change and discretely inquire whether the resident is feeling unsafe. If the resident answers yes, the staff member should bring this to the attention of a Site Supervisor and/or the agency PREA Coordinator for investigation. The housing and program assignments are made on a case by case basis on whether a placement would ensure the resident's health and safety and whether the placement would present management or security issues. There were two (2) residents this audit year whose risk assessments indicated that they were at risk of being victimized. The case manager discussed with the residents their own perception of their vulnerability and housing placement. The residents felt safe in the housing environment of the facility. The case manager made extra contact with these residents to ensure the resident was safe and felt safe in their housing placement.

There were no residents identified as a lesbian, gay, bisexual, transgender, or intersex resident to interview at the facility. The policy states the facility shall consider on a case by case basis whether a housing placement would ensure the resident's health and safety, and whether the placement would present management or security problems. The resident is asked during the screening process if they perceive themselves at risk for sexual victimization.

The facility has a process in place for the transgender or intersex the opportunity to shower separately from other residents. The directive states any resident that identifies themselves as transgender or intersex will be allowed to shower separately from all other resident upon their request. The transgender or intersex resident is able to use the single shower by requesting the key from the resident assistant. All showers in the facility are single stalls with shower doors. The facility policy only allows one resident at a time in a bathroom.

The agency does not place lesbian, gay, bisexual, transgender, or intersex residents in dedicated facilities, units, or wings solely on the basis of such identification or status, per policy Staff and Resident Sexual Abuse and Sexual Harassment (PREA).

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

The Volunteers of American Western New York Inc Binghamton's Men's Facility established procedures allowing for multiple internal and external ways for residents to report sexual abuse, sexual harassment, and retaliation. These procedures are outlined in policy Staff and Resident Sexual Abuse and Sexual Harassment (PREA) sections 115.251 and 115.261. PREA reporting methods are shared with residents at intake, during orientation, in the PREA brochure The Prevention of Sexual Abuse Community Based Residential Program Information, and on posters throughout the facility. The PREA Brochure, The Prevention of Sexual Abuse Community Based Residential Program Information, inform residents they can report verbally to the designated PREA Compliance Manager, program staff, and Parole Officer. They can also write facility staff, the NYDOCCS PREA Coordinator, the NYDOCCS Office of Special Investigations (OSI), and report to an outside agency the New York State Commission of Correction. Residents may also report allegations through third party reporting or send an anonymous note. The residents may also use call the agency's PREA Coordinator, Crime Victims Assistance Center, and NYS Sexual Violence Hotline. All of these numbers are provided to the resident on the flyers posted in their housing rooms and throughout the facility. Posters also direct the resident to call the NYDOCCS Office of Special Investigations (OSI).

The outside agencies, Crime Victims Assistance Center, and NYS Sexual Violence Hotline that operates the hotlines will forward any reporting incidents to the facility with the residents approval. Reports to the NYDOCCS Office of Special Investigations (OSI) will begin an investigation and the facility will be notified. Reports to the New York State Commission of Correction may be made confidentially and remain anonymous upon request. The New York State Commission of Correction will immediately forward any reports of sexual abuse and sexual harassment to NYDOCCS officials and the facility for investigation. If the resident requested to stay anonymous then the allegation with basic information is forwarded without the resident's name or number. The one allegation this audit year was made through a phone call to the NYDOCCS Office of Special Investigations (OSI). These reporting systems were demonstrated through review of policies and procedures, resident handbook, posters throughout the facility, and interviews with residents and staff. During the resident interviews, most residents indicated they felt comfortable reporting sexual abuse or sexual harassment and they know the options available to them for reporting. The auditor tested the phone hotlines during the on-site audit.

Staff indicated through interviews they were aware of the methods available to residents to report sexual abuse and sexual harassment. Staff were also knowledgeable on the ways residents could report to staff and their responsibility in the process. They indicated in the interviews they would report immediately to a supervisor. After verbal reporting, a written report would be completed and forwarded to the supervisor. Staff can privately report by calling the NYDOCCS Office of Special Investigations. The one allegation this audit year was made by a staff member calling the NYDOCCS Office of Special Investigations.

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) section 115.252, outlines a formal administrative process to address resident grievances regarding sexual abuse and sexual harassment. The program prohibits an informal grievance process or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse or sexual harassment. To submit a grievance, a resident can: provide a verbal or written report to any VOA staff member; call or email VOA's PREA Coordinator; call VOA's Human Resources line; and call local or state crime victims or sexual abuse hotline. This information is shared with residents at move-in and posted prominently throughout the facility and in the residents' rooms. VOA will respond to any third-party reports of sexual abuse on behalf of residents; and allows residents to access staff and other outside parties to assist with grievances. If the resident chooses to decline third-party assistance, VOA will document the refusal in the resident's chart. The program shall not impose a time limit on when a resident may submit a grievance regarding an allegation of sexual abuse or sexual harassment. A resident who alleges sexual abuse or sexual harassment may submit a grievance without submitting it to a staff member who is the subject of the complaint. Such grievance is not referred to a staff member who is the subject of the complaint. VOA will address the grievance in a timely manner. The staff person who receives the initial report will immediately notify the Site Supervisor, Vice President of Housing or the PREA Coordinator. The PREA Coordinator will be notified on the first business day following the initial report. Within 72 hours of notification the PREA Coordinator will inform the resident of the grievance process including all notifications that will be made to the resident and the associated timeframes. VOA shall issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance unless the contracting agency or another appropriate entity is conducting an investigation into the grievance in VOA's stead or has instructed VOA not to share information. Residents who made an allegation of personal abuse will be informed in writing of any agency decision. Computation of the 90-day time period shall not include time consumed by residents in preparing any administrative appeal. VOA may claim an extension of time to respond, of up to 70 days, if the normal time-period for

response is insufficient to make an appropriate decision; VOA shall notify the resident in writing of any such extension and provide a date by which a decision will be made. At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, the resident may consider the absence of a response to be a denial at that level.

The policy also states the program shall provide procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse or sexual harassment. After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse or sexual harassment, the program shall immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse or sexual harassment) to a level of review at which immediate corrective action may be taken, shall provide an initial response within 48 hours, and shall issue a final agency decision within 5 calendar days. The initial response and final decision shall document the program's determination whether the resident is in substantial risk of imminent sexual abuse or sexual harassment and the action taken in response to the emergency grievance.

The policy also states the program may discipline a resident for filing a grievance related to alleged sexual abuse only where the program demonstrates that the resident filed the grievance in bad faith.

During the audit period, there were no grievances filed.

Information for services is provided to the residents upon intake through the PREA brochure, The Prevention of Sexual Abuse Community Based Residential Program Information. The brochure provides the toll-free number for the NYS Domestic and Sexual Violence Hotline. The brochure also states that all information is confidential. Information is only shared with the people involved in the reporting, investigation, discipline, and treatment process or as otherwise required by law. This information is also shared on the posters throughout the facility.

Services are available through the New York State Sexual Violence Hotline and the Crime Victims Assistance Center. Crime Victims Assistance Center would provide the emotional support services to the resident. During the interview with Crime Victims Assistance Center, they indicated an advocate would report to the hospital and provide emotional support during the exam. Counseling would also be provided to the resident after through meetings at their office. The agency would also support and go to court with the resident if needed. Advocates are available twenty-four hours a day. Posters provide the residents with the toll-free number for the

agency. The agencies indicated a formal MOU was not needed, the services are available to the residents just like the general public.

The residents interviewed were aware of the services available to them and how to contact the emotional support agencies. They referenced the brochure and the poster near the phone as providing contact numbers to call.

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) section 115.261, outlines the reporting requirements for staff. This is also part of the First Responder-Reports of Sexual Abuse or Sexual Harassment and in the job descriptions. The policy and directives require that all staff must report immediately any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment; retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. It also states apart from reporting to designated supervisors or agency officials, staff shall not reveal any information related to a sexual abuse report to anyone other than to the extent necessary, as specified in agency policy, to make treatment, investigation, and other security and management decisions. The reporting requirements are covered in the annual PREA training. Policy also directs upon receiving an allegation that a resident was sexually abused while residing at the program, the staff receiving this information must immediately notify the Site Supervisor. The Site Supervisor, or designee, must then institute the Incident Report process, notify the PREA Coordinator and Human Resources if a staff person is involved. The PREA Coordinator will provide direction about calling the local authorities to begin a criminal investigation and the appropriate contracting agency. The Site Supervisor will notify the PREA Coordinator as soon as possible, but not longer than by the end of the business day of the day the report of the allegation was received. The Site

Supervisor will document such report and notification in the facility log. All allegations including third-party are referred to the appropriate investigation unit.

The specialized and random staff interviews confirm that staff are knowledgeable in their reporting duties, the process of reporting, and to whom to report sexual abuse and sexual harassment of residents. Staff indicated through interviews they were aware of the methods available to report sexual abuse and sexual harassment. Staff were also knowledgeable on the ways residents could report to staff and their responsibility in the process. They indicated in the interviews they would report immediately to a supervisor. After verbal reporting, a written report would be completed and forwarded to the supervisor and PREA Coordinator. Staff interviewed knew that private reporting may be completed by calling the Office of Special Investigations through the hotline.

The facility does not employ any medical or mental health staff. All services are provided by community agencies.

The PREA Coordinator interview indicated that NYDOCCS parolees are not included within the statutory jurisdiction of the State entity that investigates allegations concerning vulnerable adults, Article 11 Protection of People with Special Needs. However, the agency would report to the Adult Protective Services (APS) Agency. The policy states staff receiving a report of sexual abuse or sexual harassment of a vulnerable adult, as defined by APS, is required to report the incident to the state or local adult protective services by the person who received the report or the Site Supervisor.

The policy states upon learning that a resident is subject to risk of imminent sexual abuse, the first staff member to respond will separate the alleged victim and alleged abuser (to protect the victim and prevent further violence); not leave the alleged victim alone; call 911 if warranted; and contact the Person-in-Charge (Site Supervisor or designee) to request assistance (including notifying BOP or Parole, as applicable, of incident). All staff interviewed knew the steps to take to protect an resident at risk for sexual abuse.

The Agency Head indicated that each case is evaluated on an individual basis to determine how to keep the resident safe during the investigation. It may be through housing and work assignment changes. The case manager and resident assistant would monitor the resident more and through a one on one contact. The resident or the potential resident causing threat may be moved from the facility. If the resident must be transferred back to the prison, it will be the considered after all available alternatives are reviewed and determination has been made that there is no available alternative means of separation from the risk.

The Facility Program manager indicated in the interview that the case manager would review the housing placements and make changes if necessary. If staff was creating the risk, the staff would be placed on administrative leave during the investigation. If another resident, the facility would contact NYDOCCS for housing change.

In the past twelve months, no resident reported feeling at imminent risk of sexual abuse or any staff reported that a resident was subject to substantial risk of imminent sexual abuse, therefore, there were no protective measures to implement.

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) section 115.267, outlines protection of all residents and staff who report sexual abuse or sexual harassment, cooperates with sexual abuse or sexual harassment investigations, and from retaliation by staff or residents. Policy designates the PREA Coordinator as the staff member to monitor retaliation. The policy states residents and staff who report sexual harassment or abuse or who participate in a related investigation will be protected from retaliation. The PREA Coordinator will help staff identify any changes to the program structure or operations necessary to minimize retaliation. The PREA Coordinator or designee will meet with any residents or staff who report sexual harassment or abuse or who participate in a related investigation within 2 business days of the report and will inform them that they have a right to protection from retaliation, describe what retaliation might look or feel like, and provide staff contact information for multiple staff who will respond to reports of retaliation and collect preferred method of on-

The PREA Coordinator will pro-actively contact residents and staff every 30 days (as long as they are in the facility) via their preferred contact method to ask about any concerns related to retaliation. Any reports of retaliation will be thoroughly investigated and appropriate efforts will be made to keep staff and residents safe.

The PREA Coordinator interviewed as the staff member charged with monitoring retaliation stated that an initiate contact occurs with the resident of staff within 72 hours. The monitoring would occur for up to ninety (90) days and longer if needed. Monitoring would occur daily through the program staff with more formalized monitoring meeting at least monthly with the PREA Coordinator or designee. The resident monitoring will include any high rate of restrictions, work assignments, and behavior changes. The staff monitoring would include work hours, disciplinary actions, a change in behavior or morale. The agency can provide protection of retaliation by monitoring, administrative leave, or transfer for a staff member. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) section 115.271, states in allegations of sexual abuse, the Site Supervisor shall notify the local law enforcement department as soon as possible and any contracting agency. The Site Supervisor must ensure that all protocols are followed for crime scene preservation in order to enable the local authorities to conduct a proper investigation of all allegations of sexual abuse. The Site Supervisor or designee shall make all witnesses, the scene, and any evidence immediately available to the police investigators. In allegations of sexual abuse by staff upon a resident, the matter may be prosecuted. The program shall request that the investigating agency abide by all PREA requirements/standards. Documentation shall be maintained if this request is unsuccessful. In all other allegations of sexual harassment (boundary violations), the Site Supervisor, will contact the contracting agency and a determination will be made whether the allegation will be investigated by the contracting agency or should be investigated internally. Staff must cooperate fully with the local authorities and any administrative investigators in all

facets of any criminal and/or administrative (internal) investigations. Administrative investigations shall include an effort to determine whether staff actions or failures to act contributed to the abuse; and shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. The agency shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as resident or staff. No agency shall require a resident who alleges sexual abuse to submit to a polygraph examination or other truth telling device as a condition for proceeding with the investigation of such an allegation.

The facility does not conduct investigations. All investigations are conducted by NYDOCCS or local law enforcement. The State of New York Department of Corrections and Community Supervision (NYDOCCS) is responsible for criminal and administrative investigations for the parolees under confinement. The Office of Special Investigations (OSI) Sex Crimes Division (SCD) conducts the investigations. The Department has a working agreement with the New York State Police (NYSP) Bureau of Criminal Investigation (NYBCI) to work cooperatively in the investigations of reports of Staff-on-Resident and Resident-on-Resident sexual assault cases that may involve criminal conduct. NYDOCCS utilizes the New York Department of Health Protocol for the Acute Care of the Adult Patient Reporting Sexual Abuse for evidence protocols and forensic medical examinations. Local law enforcement would be responsible for conducting investigations for residents in the other programs. The investigator interview was conducted with an investigator from NYDOCCS Office of Special Investigations. The investigator confirmed the practices for PREA investigations and was very knowledgeable of the investigation process.

The NYDOCCS follow a uniform evidence protocol to investigate sexual abuse and sexual harassment; sexual investigations shall be conducted promptly, thoroughly, and objectively including third party and anonymous reports, and the use of investigators who have been specially trained in sexual abuse investigations. In the review of the training record provided for the investigator interviewed and who responds to this facility, the investigator received specialized training in sexual abuse investigations. The following training curriculums are utilized to provide training on sexual abuse investigations: PREA Specialized Training: Investigations, Basic Investigative Photograph Course, Police Crime Scene and Evidence Specialist Course, Investigating Physical and Sexual Abuse in Institutional Settings, and NIC PREA Investigating Sexual Abuse in a Confinement Setting. The auditor reviewed the Sexual Abuse Incident Review Information Form from the one allegation at the facility. This form is a checklist of the steps taken in the investigation. From the review of the form, interview with the PREA Coordinator and investigator, and the agency's policy; it was determined investigations into allegations of sexual abuse and sexual harassment are done promptly, thoroughly and objectively. When an allegation is reported, the NYDOCCS Office of Special Investigations begins an administrative investigation immediately. All allegations are investigated to completion even if the resident is transferred or released; and if a staff member resigns or is terminated from

employment. The investigator indicated that a preponderance of evidence is required to substantiate allegations.

If criminal prosecution is warranted, the New York State Police are contacted; and the two agencies continue the investigation working together. The investigator indicated the two agencies have a good working relationship with open communication during the progress of the investigation. If determined a crime has been committed, the case is referred for prosecution.

The credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person's status as a resident or staff. Credibility is evidence based. Neither the NYDOCCS nor New York State Police require a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation and it is a violation of state law, Law of New York Criminal Procedure 160.45. Investigators complete a written report with investigation findings that contains a thorough description of physical, testimonial, and documentary evidence. NYDOCCS written reports are maintained for seven years as a hard case and are permanently maintained electronically.

NYDOCCS would take the lead on the investigation and the facility would follow the directives from NYDOCCS. The facility would remain in contact with the investigator for the progress of the investigation and outcome. Once the investigation is completed, the NYDOCCS PREA Coordinator will forward a memorandum to the agency informing the close of an investigation and outcome along with the Sexual Abuse Incident Review Information Form. This information will be utilized by the facility during the sexual abuse incident review.

There was one (1) allegation reported during the audit period. The allegation was staff on resident sexual abuse, inappropriate relationship. This allegation was reported by a staff member through the hotline. When the facility received the information, the employee had been already terminated on other causes and the resident was no longer at the facility. The investigation is still open by the New York State Department of Corrections and Community Supervision (NYDOCCS) investigator, the investigation unit for the facility.

For the purpose of disciplinary action, a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred shall not constitute falsely reporting an incident or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation. The program prohibits all consensual sexual activity between residents and will discipline residents for such activity. However, according to PREA, VOA may not deem such activity to constitute sexual abuse if it determines that the activity was not coerced.

If a resident discloses prior victimization during the risk screening process, the resident is referred to a local walk in medical clinic. The staff member documents on the Prison Rape Elimination Act (PREA) Risk Screening Form – Male Facility that the referral was made, and whether the resident accepted or declined the referral. Also, whether the resident was offered local rape crisis program information and if the resident accepted or declined the information. The resident also signs the form acknowledging the information. If the resident accepts the referral facility staff will provide residents with requested level of support (transportation, staff accompaniment, etc.) necessary for residents to access these referrals. One resident disclosed prior victimization during the risk screening, the staff faxed the information release form and referral to the mental health counselor already providing services to the resident.

The PREA Coordinator and PREA Manager indicated that the facility would provide all follow-up medical care as directed by the hospital. The Case Manager would assist in developing an outside plan with referrals to services. The case manager would follow-up to ensure all appointments are made by the resident. The agency's policy, Staff and Resident Sexual Abuse and Sexual Harassment (PREA) section 115.286, states the facility shall conduct a sexual abuse or sexual harassment incident review at the conclusion of every sexual abuse/harassment investigation, including where the allegation has not been substantiated. The incident review shall ordinarily occur within 30 days of the conclusion of the investigation. The review team shall include upper-level management officials, with input from line supervisors, investigators, local law enforcement and medical or mental health practitioners. The review team shall consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility; examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; assess the adequacy of staffing levels in that area during different shifts; assess whether monitoring technology should be deployed or augmented to supplement supervision by staff and current camera systems; and prepare a report of its findings, including but not necessarily limited to determinations made pursuant to sections a. – e. (above) and any recommendations for improvement, and submit such report to the Program manager and the PREA Coordinator. The facility shall implement the recommendations for improvement; or shall document its reasons for non-compliance.

The Facility Program manager indicated that the incident review team includes the PREA Manager/Vice President of Housing, CEO, PREA Coordinator, Program Manager, and other staff as determined relevant. The team utilizes the investigation report to determine factors and review the incident. Some of the factors reviewed include the incident detailed information, were there blind spots, does staff need further training, was staff interacting appropriately and following policies and procedures, and what measures, if any, needs to be put in place to ensure resident and staff safety. The Incident Review Report is then submitted to the Program Manager and PREA Coordinator for approval and implementation of any recommendations.

The incident review team members interviewed indicated they review the incident in detail. All incidents will be reviewed even unfounded. Under motivation they review the race, sexual

orientation, gang affiliation, were residents properly screened, and the review of the investigation information. In reviewing the location of the incident, they consider if the area has other issues and blind spots. When assessing staffing, they review proper staffing of the day, assigned staff to the area, was policy followed, and is there a need for policy change. Under monitoring technology, the team reviews camera location, video needs, and are mirrors needed.

The facility has not completed an incident review during the audit period. There was one allegation forwarded for investigation. At the time of the audit, the investigation is still open.

- Does Not Meet Standard** (*Requires Corrective Action*)

The review of the agency's website confirms that PREA audits are being conducted on the agency's facilities. The agency did not ensure that each facility operated by the agency was audited at least once and at least one-third of facilities audited each year during the three-year period starting August 20, 2013. The auditor observed on the agency's website one report for their other facility that was conducted in 2016. This facility started their new contract in May 2017 and this was the Binghamton Men's Facility initial audit.

During the audit, the facility and agency provided the auditor full access to all areas of the facility and the auditor was able to observe practices. Prior to the audit, during the audit, and after the on-site audit, the agency and facility provided the auditor requested documents. Private interview space was provided to the auditor for conducting staff and resident interviews. Staff and resident interviews were held in an administrative office located off the lobby. Posted signs advised residents could send confidential information or correspondence to the auditor. The auditor did not receive any correspondence from residents.

Based on the above information, the agency/facility meets the Standard 115.401 Frequency and scope of audit requirements.
